Callouts

What is the Callout component ?

The Bootstrap documentation has really nice callouts to draw attention to important information, but for some reason these callouts are not included in the actual Bootstrap distribution.

This plugin include the original Callout from Bootstrap documentation for *info*, *warning* and *danger* and the extension for *default*, *success* and *primary* from http://cpratt.co/twitter-bootstrap-callout-css-styles.

Basic usage

```
<callout>
=== Default Callout ===
This is a default callout.
</callout>
```

OR

```
<callout title="Default Callout">
