With tables

Add any non-bordered table within a panel for a seamless design. If there is a no‑body attribute, we add an extra border to the top of the table for separation.

Panel title

Some default panel content here. Nulla vitae elit libero, a pharetra augue. Aenean lacinia bibendum nulla sed consectetur. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Nullam id dolor id nibh ultricies vehicula ut id elit.

#	First Name	Last Name	Username
1	Mark	Otto	@mdo
2	Jacob	Thornton	@fat
3	Larry	the Bird	@twitter

```
<panel type="default" title="Panel title" no-body="true">

quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Nullam id

^ # ^ First Name ^ Last Name ^ Username ^
^ 1 | Mark      | Otto      | @mdo     |
^ 2 | Jacob     | Thornton  | @fat     |
^ 3 | Larry     | the Bird  | @twitter |
</panel>
```

If there is no panel body, the component moves from panel header to table without interruption.
